

The Sea Worksheet 1

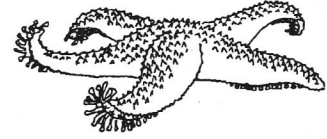

Directions: Read about each animal on the left. Then find its picture on the right. Write the animal's name under its picture.

1. Shark

A shark is a fish.

It has gills on each side of its body.

Gills help it breathe.

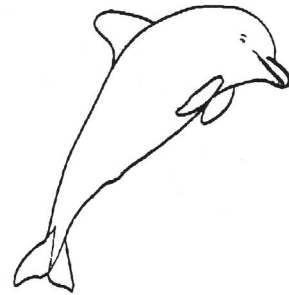

2. Crab

A crab has 6 legs and 2 claws.

It can walk on land.

It can swim too.

3. Dolphin

A dolphin is a mammal.

It can breathe through a blowhole on top of its head.

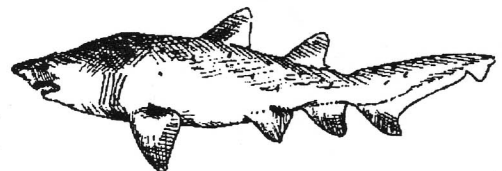

4. Starfish

A starfish looks like a star.

It lives under water.

It sometimes clings to rocks.

5. Seahorse

A seahorse is really a fish.

It can't live out of water.
